CONTENT

Welcome to the world of Content Hauptwerk™!

In this brochure we take you through the possibilities that Hauptwerk™ and the Content Cambiare organs can offer you.

Play famous church organs in your living room or music-studio. Content offers Hauptwerk™ organs for your church hall or living room with natural sound reproduction and simple operation. This makes the Hauptwerk™ organs of Content unique. Optimal tuning, flexibility and customization are keywords here.

Our Cambiare series consists of several Hauptwerk™ models that have been created by specialists with expertise in audio design.

Convince yourself by making an appointment to get further acquainted with our Hauptwerk™ organs and the 'high-end' audio playback. Welcome to our Hauptwerk Experience Center in Ermelo (NL) or visit your local dealer!

Team Content Organs

What is Hauptwerk™?

Hauptwerk™ is a software program developed to make the natural sounds of pipe organs sound lifelike in a living room.

In Hauptwerk™ sample pipe sets can be loaded. A sample set contains a complete library of organ sounds that are recorded pipe by pipe and if necessary, the acoustics of the room in question.

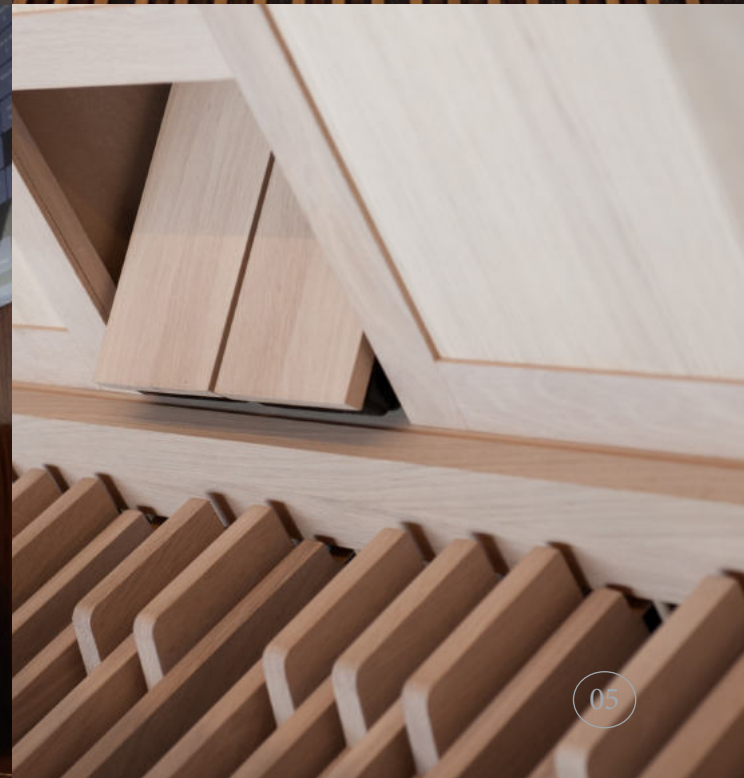

By means of MIDI-connections, it is possible for Hauptwerk™ to 'communicate' with an organ console. A detailed and well-tuned audio system from Content receives these recordings and reproduces them faithfully in your church hall, living room or music studio.

By means of a touchscreen or traditional (pull) stops voices of an organ can be activated. It is possible to load multiple sample sets into one organ console.

With a Content Cambiare organ you are a few clicks away from the sounds of the Müller organ in the Bavokerk in Haarlem or the famous Marcussen organ in the Laurenskerk in Rotterdam. Or would you rather choose the beautiful Silbermann organ in the Petrikerche in Freiberg/Germany? With hundreds of sample sets, the possibilities with Hauptwerk™ are endless!

Our Cambiare models are available in different models. These models are available in multiple cabinet designs with internal or external speakers.

For a sound impression of the various models, you are cordially invited to visit our organ factory in Ermelo, or one of our dealers in your area. Through our website, you can listen to various recordings.

Our collection

Small in size, big in possibilities, that's what characterizes the Cambiare 312! The compact designed cabinet allow it to fit in every living room. A multi-channel built-in speaker system eliminates external speakers and associated cabling.

In the Cambiare 312, the best of both worlds comes together. The possibilities of Hauptwerk™ are complemented by the unique audio experience of our popular digital organ models.

With this capability, it is possible to experience the sound at several different positions in the room, as well as the presence of the reverb.

Thanks to this innovative Content system, each sample set sounds entirely to your own taste and expectations!

The control of this organ is via two small touchscreens, where the Content User Interface the controls makes it simple and straightforward. This three-manual organ is available in any stain color.

Content Cambiare 312

The Cambiare 210, with internal speakers has a modern contemporary design. The internal loudspeakers are located on either side of the keyboards, so the organ sounds natural and is faithfully displayed to the organist. In this way you experience the lifelike organ sounds optimally!

This Cambiare series has the easy-to-use Content User Interface. All tonal dispositions are clearly displayed in the same layout, allowing you to easily and quickly find the right register. Changing sample sets is also quick and easy.

This organ is available in a two-manual -210- and a three-manual -310- version and is available in any desired color.

Content Cambiare 210/310

The HauptwerkBox combines the existing technology of your organ with a new horizon. Your digital organ samples remain playable and in addition, you can use the infinite possibilities of Hauptwerk™.

The HauptwerkBox will be connected to your existing Content digital organ and is equipped with the necessary connections to play Hauptwerk™ on your own organ. A HauptwerkBox can be ordered in the color of your organ, with an eye for quality and reliability being paramount.

With the choice of a HauptwerkBox and the desire for high quality sound, Content offers the Content Home 8 speaker set. (See page 10)

Content HauptwerkBox

The most important feature of the Cambiare series is the external speakers. This unique High-Performance audio set is designed by a team of audio specialists. The speakers are delivered in wooden boxes made of French oak. These can be placed in such a way that the spatial experience of Hauptwerk™ comes into its own.

The Cambiare 323 series features the easy-to-use operate Content User Interface. All dispositions are clearly displayed in the same layout, allowing you to easily and quickly find the right register.

Changing sample sets can be done quick and easy. Standard this organ comes with one touchscreen in a wooden casing, with a second touchscreen is available as an option.

This organ is available as two manual 223 and three manual 323 version and each is available in the desired color.

Content Home 8 speakersystem

The Cambiare 315 brings the authenticity and grandeur of small and large church organs to life!

The modern and stylish designed cabinet gives this organ the appearance it deserves. Of course, the organ can be expanded with the addition of a beautiful cornice.

The speaker arrangement in this cabinet provides a spatial reproduction. As an organist you are given the perception of being in the middle of the room, where the sound comes both from the front and above the cabinet. This organ is also equipped with an internal surround which can be set up in various ways.

The user-friendly Content User Interface on the displays on both touchscreens makes operating the chosen sample set very easy.

Content Cambiare 315

Content Cambiare 325

The Cambiare 325 is an organ with a contemporary styled cabinet. Because of the width of this model, large touchscreens on both sides of the music desk are present, which increase the easy use of operation. The Cambiare 325 has an extensive internal audio system, which also has internal surround built in.

The Cambiare 325 comes standard without Content User Interface giving you direct access to the Hauptwerk™ software. This gives you the possibility to adjust the chosen sample set to your own wishes. The Content User Interface is also available as an option for the Cambiare 325. Make your Hauptwerk™ dream come true and imagine yourself behind the console of famous organs!

The Cambiare 325 is available in any color. As an option you can choose for a 32-note pedal board.

Content Cambiare 335

The eye-catcher in our Hauptwerk™ collection is the Cambiare 335. This organ has an extensive internal audio system and wooden draw stops complete the unique church organ experience!

Thanks to the exclusive internal speaker arrangement and the many possibilities for external expansion, the Cambiare 335 is ideal for the real organist and organ lover! With a drawer, the touchscreen can easily be hidden in the cabinet. The Cambiare 335 is one of many models set up in our Hauptwerk Experience Center in Ermelo.

Make an appointment and experience for yourself the beauty of these unique instrument!

The Cambiare 335 is available in all standard colors and a 32-note pedal board is an option.
